From your JSD Mentor Department

Communication

As we head into Parent/Teacher conferences, here are some things we can help our mentees remember.

⭐ Be Warm - A little friendliness goes a long way when communicating with parents.

⭐ Be positive - You are an educational problem solver! With parents you can do great things!

⭐ Make parents feel valuable - Make them part of setting goals

⭐ Communicate often - Don’t let parent teacher conferences be the only time you communicate with parents.

⭐ Ask questions and LISTEN - Use Parent/teacher time to learn more about your students

⭐ Don’t make assumptions - don’t assume you know what is happening in the student’s home. Be mindful that families come in all shapes and sizes.
